RE-ELECTED BY THE REPUBLICANS

Satisfaction with the work of Chas. R. Hollingsworth as chairman and John V. Bluth, as secretary, was expressed by the action of the Weber County Republican committee in re-election the two executive officers at the meeting this afternoon. The meeting was held in the office of J. L. Robson, Weber county assessor and candidate for re-election. It was called for the purpose of perfecting the organization of the committee which was named by the recent county convention and to attend to all other matters under consideration.

Among these was the selection of a candidate to fill the vacancy in the state legislative ticket caused by the relinquishment of that place by Samuel Powell who found he could not accept the honor bestowed upon him by the convention because he could not meet the age requirement. Clarence E. Wright is a candidate for the place.

In the absence of Mr. Hollingsworth and Mr. Bluth, Lyman Skeen was named temporary chairman and D. R. Wheelwright temporary secretary.

After the selections, George Halverson addressed the committee, stating that it had been the sense of a meeting of the Republican candidates for office last Tuesday night, that, in view of past excellent service of both Mr. Hollingsworth and Mr. Bluth in executive positions, they should be re-elected unanimously. He said the matter, however, was entirely up to the committee.

T. M. Jones, Jr., of Hooper, then moved that the committee adopt the recommendation of the candidates, and the selection were made.

Mr. Jones and N. P. Matthews of Pleasant View were then appointed a committee to escort Mr. Hollingsworth and Mr. Bluth into the committee room.

Cadillac "8" Covers 74 1/2 Miles in 1:12:38

Beats Racing Car's Time by Ten Minutes From Denver to Colorado Springs.

Seventy-four and one-half miles in 1 hour, 12 minutes, 38 seconds is the new road record for motor cars between Denver and Colorado Springs, Colo. It was made recently by a Cadillac Eight, driven by Harold Brinker.

This remarkable dash from one city to another was made at an average speed of 61 1/2 miles per hour. Done by a stock car not built for racing work, it was faster, by almost 10 minutes, than a noted racing driver made three weeks previous in a racing car built expressly for speed.

This is the third time that the Cadillac Eight, with Brinker driving, has performed speed stunts out of the ordinary in Denver territory. A few months ago Brinker drove the car against 21 others in a road race from Denver to Laramie, Wyo., 132 miles. The time was 2 hours, 55 minutes, 10 seconds, and the average speed close to 44 miles per hour. The Cadillac finished 18 minutes ahead of its nearest rival, and 33 minutes ahead of the best previous time over the same route.

Prior to this the same driver, with a Cadillac Eight, had raced a Union Pacific train from Denver to Cheyenne, covering 116 miles to 112 by the train, and beating the latter by two minutes. The average speed on this occasion was above 50 miles an hour.

"You are lying so clumsily," said the observant judge to a litigant who was making a dubious statement of his case, that I would advise you to get a lawyer."—Browning's Magazine.

Arguments on the application of property holders on Twenty-fourth street for an injunction to prevent the city commission from proceeding with the improvement of the street by paving the section between Wall and Washington avenues were heard by Judge Nathan J. Harris in the district court today.

MUD FLOWS THROUGH PIPES OF THE CITY BY DEMOCRATS FOR CLERK

Although there was water in abundance, last night's rain indirectly was held responsible for the many dry throats this morning when the people of the city preferred suffering the pangs of thirst to quaffing the beverage from the drinking fountains at various places on the sidewalks and in the business district.

The fault did not rest with the fountains. From the mouth piece issued a spray of usual volume, but it did not appear to have that sparkle that characterized Ogden's one hundred percent pure water supply in the past year or more.

Its coffee color was attributed to a generous supply of mud which had been washed into the Wheeler canyon stream by a cloudburst in the mountains early last night. The muddy water got into the pipe through a failure to close the gates at the connection.

The fire department was called out to remedy the situation. It was expected the supply would resume its natural condition before nightfall.

The muddy water caused a great deal of inconvenience to households using the city water and who were not provided with filter devices.

BUSINESS MEN HEAR WILSON

Declares Chief Cloud on American Horizon Is Relations Between Capital and Labor.

Long Branch N. J., Sept. 23.—President Wilson opened his "norch campaign" here today with a speech to a delegation of New Jersey business men gathered at Shadow Lawn. Outside of his speech of occasion, it was the first address he had delivered since his nomination.

"I do not regard the principle of the president," "I made that plain at the beginning of the railroad conference."

In addition to the business men several hundred residents of New Jersey were present and all the chairs on the lawn were occupied when the president began speaking.

President Wilson declared in his speech that the chief cloud upon the American horizon is the relations between capital and labor. So long as capital and labor are antagonistic, he said, there will be danger.

The president declared that America had devoted itself "time out of mind" to peaceful pursuits and that business is the expression of its object. A new spirit has come over American business recently, he said.

Pulse of Energy Beats High.
"There was never a time when the pulse of energy and success beat so high in the blood of America," he said. "But movements are to come. America is about to release her energy. The problems that are before American business are world problems. Some look backward."

President Wilson replied to the attacks of Charles E. Hughes, the Republican nominee, on the administration's action in respect to the eight-hour law for railroads.

"When I was discussing the railway situation," he said, "I realized that the most important thing was to bring employers and employees to understand each other better."

"It would be intolerable for the commerce of the country to be held up," said Mr. Wilson. "The danger in the situation was that the people of the nation are not represented."

The president pointed to support given by Republicans in congress to his plan. He said, "this had to be done at the time when it was done."

The president declared that labor is "not a commodity, but a form of co-operation." He urged the necessity of a better understanding between capital and labor.

Mr. Wilson said he believed in an eight-hour day because under it men do better work. He cited court decisions to show that an investigation was the only way to tell whether the railroads could afford an eight-hour day.

He went into the details of the controversy between the railroads and the employees. He declared that from the beginning he did not ask either side whether the solution he suggested was acceptable to them.

Must Prevent Future Trouble.
"A way must be found," President Wilson said, "for preventing a repetition of a situation like the threatened railroad strike."

"I invite all subscribers to suggest a method," he added. "America is never going to say to an individual 'you must work,' but it is going to tell organizations of men that they shall not interrupt the life of the nation. The entire program for the solution of the railroad problem as proposed by me to congress is going to be passed."

MOTHER OF FINLEY SHEPARD DIES

New Haven, Conn., Sept. 23.—Mrs. Peter L. Shepard, mother of Finley Shepard, who married Helen Miller Gould, died here today, in her eighty-sixth year, from infirmities of age.

The Weber County Democratic Central committee, at a meeting in Democratic headquarters in the De-Eccles building this afternoon, filled the vacancy in the county ticket by nominating C. M. Ramey of the Ogden Commission company for county clerk, over W. S. O'Brien of the Postal Telegraph company, by a vote of 15 to 14, there being 29 members of the committee present.

The meeting was presided over by S. S. Smith chairman of the county central organization, with S. P. Dobbs, candidate for district attorney, acting as secretary.

The committee then began the work of considering names of persons for election judge selections.
